The FUNd Development Team had a great time volunteering with Bargains & Blessings in Wildwood this month! The team used 4 paid volunteer hours to give back, work together in new environment, and have fun!

Don't forget, EVERYONE has 8 hours of paid volunteer time that can be used annually. Select a local organization and invest back into the community. Whether you choose to volunteer as a team or on your own, speak to your supervisor about how you can volunteer for a cause you care about!

BE our VOICE! Share our website...it is a wealth of information and folks can sign up for our monthly e-newsletter to stay informed on all the Habitat Happenings.
